## A-Gas Americas

**Address:**     **Industry:** Oil & Gas

**Date Posted:** 2017-04-11

Recover. Replace. Reclaim. Contain. Protect A-Gas Americas is one of the world leaders in the supply and life cycle management of specialty chemicals such as refrigerants, hydrocarbon blowing agents, and clean agent fire protection. A-Gas offers a full range of environmental services for the recovery and reclamation of environmentally sensitive products such as CFCs, HCFCs, HFCs, Halons and associated products. Our decades of experience, depth of knowledge, and commitment to environmental solutions is unrivaled in the industries we serve. Everyday we bring viable, trustworthy and proven solutions to our customers. Grow with us. A-Gas Americas has recently expanded our business through the acquisition of Rapid Recovery. Rapid Recovery is known as the nation's uncontested leader in refrigerant recovery. The acquisition of Rapid Recovery allows A-Gas Americas to become a world leader in providing sustainable environmental solutions to its customers! A-Gas Americas is one of the world leaders in the supply and life cycle management of specialty chemicals such as refrigerants, hydrocarbon blowing agents, and clean agent fire protection. A-Gas offers a full range of environmental services for the recovery and reclamation of environmentally sensitive products such as CFCs, HCFCs, HFCs, Halons and associated products. Our decades of experience, depth of knowledge, and commitment to environmental solutions is unrivaled in the industries we serve. Every day we bring viable, trustworthy and proven solutions to our customers. We do this in several ways:

- By purchasing "used" Halons, CFCs, HCFCs and HFCS from non-critical users and reclaiming them until they meet internationally accepted standards. This material is then "banked" in our long-term storage facilities until it is needed by critical users.
- By

---

selling new replacement agents to users who no longer require Halons and CFC refrigerants. • By offering 24 Hour Clean Agent recharges for System Bottles. • By being a major supplier of blowing agents to the foam insulation markets. • By offering On-site recovery of refrigerants through our newly acquired business Rapid Recovery® • By offering several destruction options to clients who need to safely dispose of these hazardous materials in accordance with all regulatory requirements. • By testing refrigerants and fire protection agents in our On-Site AHRI certified laboratory. At A-Gas we understand that our employees are our greatest asset. We take great pride in the initiatives we have in place to allow our employees to grow their knowledge base and professional skillset. We offer a number of training initiatives, including: professional certifications, tuition reimbursement, and industry-related technical training. As a global company we also offer opportunities to work with our many locations around the world.
